## WHO I AM AND WHAT I DO:

Welcome, and thanks for checking out this little bio! My name is Josh. I am the owner and lead photographer/cinematographer at FK Productions. My passion for creating art is through capturing people.

I have worked in many different fields of photography, from weddings to boudoir to corporate commercials. Most of my work involves working with people to tell their stories. Working in various genres with people has given me a particular skill in which I can work just as well in a studio as on location.

With FK Productions, my goal is to create a fun, relaxed and safe environment where you can show off and be yourself. Being comfortable and enjoying the process is vital to show off your personality and aesthetic.

Capturing these moments takes time and skills that only some photographers possess. This, coupled with the multiple mediums we deliver, means that our unique skills and styles are staples of our artistic vision. We want to ensure that your shoot reflects your sensuality while reflecting a final creative product.

I work with individuals, couples, groups, or content creators to give you all a product that you will be happy with and something you'd love to show off! I love the work I do, and I can talk about it forever, so at the end of glancing over this booklet, if you have questions, reach out to me! I would love to chat with you about your projects!

**JOSH**  
LEAD CINEMATOGRAPHER & PHOTOGRAPHER

A young woman with blonde hair is lying on her side on a bed with pink sheets. She is wearing a black lace bra and matching black thong underwear. A bright red jacket is draped over her shoulders. She is looking back over her shoulder towards the camera with a slight smile. Her right hand is resting near her face, and she is wearing a ring and a necklace. The background is softly blurred, showing some greenery and a white wall.

# PHOTO & VIDEO PACKAGES

## PERSONALS

This section is dedicated to people who want to have a photo shoot done for the fun of it. These are individual people or small groups who are doing it to get professional photos or videos created for them. These are a great way to treat yourself or celebrate a life milestone, or a great present to give to someone in your life.

These packages are coupled with contracts that prohibit the reselling of the content we create together—making them considerably more cost-friendly. If you are looking for pricing for content that can be resold or published en mass, check out our commercial pricing section.

## COMMERCIAL CREATORS

Having a professional photographer and videographer for a shoot can drastically change the quality of content you are putting out. Not only does it give you access to high-level equipment, but it also frees you up to concentrate on the material you want to create. Whether you are creating photos or videos with a partner or a group of friends, having someone there dedicated to ensuring that you all get high-end content to publish will mean that you can make more from what we produce.

Our pricing for content creators is based on an hourly rate. Typically, before shoots, we will chat with you about what kind of content we are planning on shooting to figure out how long we will need to film. We have found the hourly rate to be the ideal way to work with other creators since it allows you guys to customize the amount of time we're shooting for. This way, you can control how much we create, which can also fit within your budget.

## CREATOR PRICING

### PHOTOS + VIDEO

Photo + Video gives you the ultimate way to get a lot out of your shoot. Because of the combination of content for this type of shoot, the number of photos and videos can vary since we can focus more heavily on one than the other. This option is great if you want to slowly release content on your platforms since you can tease them out in various mediums.

**\$ 275/h**

### VIDEOS

Having professional videos created is an excellent way to stand out among the sea of competitors. Videos can be anything from teaser content that is one to two minutes long to tease a new content or lengthier videos that are 20-40 minutes. This rate includes shooting and editing time for videos.

**\$ 220/h**

### PHOTOS

Professional photos will always look incredibly better than those you'll take on your iPhone. The bonus of having shoots done is we can create content in advance to save you time from having to create new content daily. Getting a few hundred photos out of a photo shoot can make this process extremely easy for you!

**\$ 175/h**

### RAW PHOTOS + VIDEO

Raw photos and videos give you unedited copies of videos for you to reuse the content that we shoot. This is a great way to extend the number of photos you can deliver to your fans or the number of videos you can create.

**\$ 25/gb**

### DRONES

Set your content apart with a drone! Adding a drone can increase the production value for your videos, or add a creative angle for your photos. Ask us about how working with our drones can help your project!

**\$ 250**

### MULTI-CAM SESSIONS

Increase the production value of your project by working in a multi-cam setup. We can work with 2-6 cameras, depending on what your project calls for. Ask us about how multi-cam setups can help your project!

**\$ 350**

## COMMON QUESTIONS

### WHAT SHOULD I BRING?

When choosing what to you need, pack outfits that you love, and think you look great in. Your favourite jeans or dress for example. For boudoir sessions, bring a few different sets of lingerie and as much jewelry you need to match. You can also bring unique outfits like sports uniforms or any other items you or your significant other find appealing.

We suggest packing a few pairs of shoes (comfy to wear in along with heels or boots) along with some make-up and a hairbrush in case you need a touch-up while we shoot. Our studio has a make-up station that you are more than welcome to use while we shoot.

For head shots and portraits bring clothes that make you feel confident. Clothes that work well are typically more formal attire, however having a semi-formal or more casual outfit and be a more welcoming photo.

### SHOULD I GET HAIR AND MAKE UP DONE?

This is a special occasion on which you want to look your very best. Having a professional do your hair and make-up will certainly take some stress off you when getting ready for your shoot. You are more than welcome to bring them to the studio to do touch-ups. Alternatively, you can get this as an add on through us. We also have a few connections with makeup artists and get special rates from them.

### CHAPERONES & GUESTS

You are more than welcome to bring chaperons and guests to your shoots! Some of the shoots we offer work best when you are most comfortable, so the more, the merrier if that would make you feel better! These guests are more than welcome to accompany you for your session, however if they want to participate they would also need book a session. We are more than happy to shoot groups of people. We tend to cap that at 3 people before we start looking to get second shooters or book group rates.

# PHOTO & VIDEO PACKAGES

## LOCATION LOCATION LOCATION

We are open to shooting in a variety of locations. We have a studio ready for boudoir-style shoots, a large cyclorama wall for fashion and portraits and a variety of paper backdrops to add a pop of colour into your images. Or we are open to coming to you. If you are from London, we would be more than happy to have a photoshoot where you feel most comfortable. Some people are more comfortable with this, plus it allows us to get into a new space to try new things! If you're from out of town, don't fret. We would be happy to come out to you still. However, we would have to charge a travel fee to cover the travel. Lastly, being in the great outdoors is always a blast. We have a list of great spaces to shoot in depending on the final product that you want, or you can suggest places too! Where we shoot is entirely up to you and your comfort level!

## DO YOU BACK UP YOUR WORK?

We know that this is an important moment for you, so we take a variety of steps to back up our work. First and foremost, we back up to two hard drives immediately after we finish shooting. This way we have a fail-safe in case one hard drive dies. Additionally, we back up current projects on Dropbox. This way they are also stored on computers that are in different locations again to ensure if anything happened to our hard drives there would still be a backup.

## WHAT EQUIPMENT DO YOU USE?

We are Canon fanboys to the max; so we use a variety of their cameras depending on the shoot that we are doing. Our main cameras are the Canon R5 and the Canon 5D MK IV. These cameras are industry standards for photography and are some of the bests in their class. The advantage to these cameras is that they can shoot a hybrid of photos and video, which makes them convenient for our style of shooting. When doing more serious video work, however, such as with the glamour shoots, we may also use our Canon C100 MK IIs as well. These robust cinema cameras have a bit more functionality than the other cameras making them ideal for specific use cases.

We primarily use a style of lens called the prime lens. This means that the lens doesn't zoom. The disadvantage is that we lose this functionality, but our styles conform better to using them. We have the full lineup of Canon's L series prime lenses: their 24mm, 50mm, 85mm are our go-to lenses, but we also use our 70-200mm or 100mm macro.

## HOW DO I GET MY PHOTOS OR VIDEOS?

Unless you get an add-on for prints, all your photos and videos will be delivered via a download link. This link will be available for you to download all your photos and videos for 4 months, after that it is taken down. If you order prints, we will mail them to you, or if you wish we can arrange a time for us to drop them off.

We understand that some may be concerned about content being leaked. We take this with the utmost priority to ensure this never happens. Our first step is to ensure all galleries are password protected for delivery. The passwords are always delivered via a different communication method than the gallery. On the off chance the gallery is given to the wrong recipient, they will not have access to the contents. If you are still uncomfortable with online delivery, we can deliver the contents via a USB and either mail them or deliver them in person to you. This ensures they never go near an internet service; however, it does remove the option for password protection.

# PHOTO & VIDEO PACKAGES

## CAN I ORDER MY OWN PRINTS?

We highly encourage you to get prints, whether from us or from others. We work with a local printer (as a small business we highly focus on working with other local companies) and get a special rate as we order enough from them, however, if you want to print additional or have your own printer you would prefer to use you are more than welcome too. We do ask however that you respect the art and have the work professionally printed. Print is an art, having it done by those who know how to do it well will definitely show through to the final product.

## CONTRACTS

Contracts are always required to be signed for shoots to commence. Like any other contract you sign, these are designed to protect you and me and ensure that we both are on the same page about what you'll get out of your shoot. We have a few different ones set up depending on what you want out of your shoot.

The most significant differences to start are the content creator contracts versus individual contracts. The most considerable difference outlined in these contracts is the reselling of content. As stated previously, only content created under content creator contracts is eligible for redistribution. This is because we tend to hold copyright status to all the photos and videos we take, and this info gets embedded into the files. Content creators get a modified status that allows legal redistribution.

The second important factor in our contracts is model releases. We love posting the content we shoot on our socials, website, or even in package lists like this. Not everyone we work with is comfortable with their images being used, and we totally understand that. This is why we want to ensure the model release reflects the appropriate level of exposure you want. It varies from absolutely no publications to non-identifiable parts to full publication rights. You decide what level will be reflected in your contract to ensure you're legally protected in this sphere.

If you want to look over our contracts before you book a shoot, feel free to reach out and ask us! Let us know what you're thinking, and we can send over the appropriate copy for you to peruse.

## PRICING AND PAYMENTS

As you likely have already looked over, our pricing info is listed above. Depending on what you decide to get will determine the cost of your shoot. All packages and add-ons are combined to bring you a total cost for your shoot. We require a deposit to be placed for all of our shoots. This reserves your time slot and ensures that I will be available for your shoot. Spaces are only booked once I have the contract and deposit in hand. Deposits are always 50% of the total and are fully refundable up to 7 days before the shoot. After this 7 day period, shoot deposits are non-refundable. For content creators, we will budget out how much time we need to shoot beforehand to get an idea of the costs. Again this would then determine the deposit. The remaining portion is due upon delivery of your photos or videos. After getting your final images and videos, you can send over the remaining balance.

We take a few different payment methods to make life easier for everyone. The ideal way is through an e-transfer. However, we also accept cash, cheques, or credit cards. Credit card transactions are done through PayPal invoices.
